- \_\_\_\_\_

**NOTE FROM KRISTINA**

This checklist is quite robust but not completely exhaustive, there will always be something you can add to make your event unique! That being said, most couples will not need to purchase every single item listed either. Use this list as a guide for the items you will need to account for in your wedding budget, and a planning checklist as well!

Many of these items are completely optional, don't fall victim to thinking you need it all! Sit down and evaluate with your partner what you think will be impactful, and what you can live without.
